Note: In 2009, the Benedictine Monastery started to upgrade a little. In order to do this the Marian wing would need to be razed. Strict word was given out that all woodwork, cabinets, doors and frames, bookcases, fixtures - plumbing and electrical would be saved and it was. Great care was given to its removal. Most all wood was cleaned of any nails and crews and sorted. A lot of this salvaged material was used in the new Main Entrance of the Convent.

We cannot list all there is to sale. The list wold be overwhelming. If you have a home remodel or building project planned this is the auction to be at .
